

Reference list Laundries

Advance in heat transfer technology

Until today we have installed more than 350 thermal oil plants all over the world.

60% of them are installed in Switzerland.

40% of them are installed in Europe, Asia, Africa, middle America and in the USA.

Regiomat is doing

- the engineering
- the assemblage
- the startings
- the consultings and servicings

We adjust all questions and works for all necessary circumstances.

Our experience for decades and our know-how allows us to engineer a perfect thermal oil system with all necessary components, also in the industrial sectors

- chemistry
- textile
- automobile industry
- food industry

Regiomat is a leader in engineering and installing complete thermal oil systems for

- laundries
- printing machines and packaging

Each machine manufacturer appreciates our knowledge about the specifications for their machines.

If you need some more informations for a special trade please do not hesitate to contact us.

Installed laundries since 1969
